The Plumstead Make Merry is an annual not-for-profit free festival which is organised by local volunteers. We rely on fundraising, sponsorship and income from stalls to stage the event. It attracts thousands of people, and offers a range of activities to the community, as well as a showcase for talent. Since 1975, the Make Merry has been a key date in the diary for not only local people but also local businesses. As a local business, you play a key part in making this area such a great place to live, work and spend time. We want to give you the opportunity to get involved and let people know who you are and what you have to offer. There are two packages available:
